RENEWABLE ENERGY PROGRAM RIDER

AVAILABILITY

Service is available under this Rider at points on the Cooperative's existing electric distribution system, located within its service area, for Consumers taking service under the Cooperative's standard service rate schedule and as applicable and pursuant to the qualifications provided herein. Notwithstanding the foregoing, this Rider shall not be available to Consumers taking service under the Cooperative's Irrigation Service or Street Lighting Service schedules or to Consumers with self-generation that require standby, backup, breakdown, or supplemental service.

CHARACTER OF SERVICE

As is available, the Cooperative will offer Consumers energy from renewable resources and associated renewable energy credits in an amount equal to the level of service purchased by the Consumer taking service under this Rider. Energy output from renewable resources will vary from month-to-month due to weather and other factors, and in some months, participating Consumers may not receive the full amount of participation energy associated with their selected Participation Level.

DIVISIONS, TIERS, AND PARTICIPATION LEVELS

Service under this Rider is available under either the wind Division or the solar Division. Three Tiers are available under each Division. The qualifications and cost structure for each Division and the associated Tiers are uniquely defined herein. Consumers that meet the qualifications for a given Division and Tier may select a Participation Level ranging from a minimum of 25% of their total energy consumption to a maximum of either 100% of their total energy (kWh) consumption or the Tier Participant Cap, whichever is greater.

QUALIFICATIONS AND LIMITATIONS

Service under this Rider is subject to qualifications and limitations as described below.

The Minimum Size qualification for all tiers, excluding Solar Division Tier 1b – Residential Community Solar, is determined by the Consumer’s average hourly demand (kW) from the previous 12 months. Participation in Solar Division Tier 1b shall be at least 1 (125 kWh) share. The Minimum Size qualification is evaluated when a consumer requests service under the Rider to determine initial eligibility. The Minimum Size qualification is subsequently evaluated at the beginning of each calendar year to determine ongoing eligibility.

The Tier Participant Cap is a not-to-exceed monthly limit for maximum participation (kWh/month) by individual Consumers in the Renewable Energy Program. The Tier Participant Cap is effective each month a Consumer takes service under the Rider.

The Total Tier Cap is a not-to-exceed monthly limit for maximum participation (kWh/month) by all Consumers participating in a given Tier. The Total Tier Cap is evaluated each time a Consumer initially requests service under the Rider. The evaluation is performed by summing the maximum monthly participation energy (MWh/month) from the previous 12 months for all Consumers participating in a given Tier with the anticipated maximum monthly hourly participation energy for the Consumer that is requesting service under the Rider based on that Consumer’s maximum monthly energy usage from the previous twelve months multiplied by the requested level of participation.

Renewable Energy Credits will not be available to Consumers participating in Solar Division Tier 1b – Residential Community Solar.

Wind Division Tier 1 -

Minimum Size = 100 kW
 Tier Participant Cap = 1,500,000 kWh/month
 Total Tier Cap = 8,000,000 kWh/month

Wind Division Tier 2 -

Minimum Size = 200 kW
 Tier Participant Cap = 3,000,000 kWh/month
 Total Tier Cap = 16,000,000 kWh/month

Wind Division Tier 3 -

Minimum Size = 1,000 kW
 Tier Participant Cap = None*
 Total Tier Cap = None*

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 3 of 5 Sheets

Solar Division Tier 1a -

Minimum Size = 1 kW
 Tier Participant Cap = 100,000 kWh/month
 Total Tier Cap = 600,000 kWh/month

Solar Division Tier 1b -

Residential Community Solar
 Minimum Size= 1 share (125 kWh)
 Tier Participant Cap= Total number of shares (kWhs) available to an individual residential Consumer shall not exceed an individual residential Consumer's previous 12-month average kWh usage.
 Total Tier Cap= The total number of shares (kWhs) available to residential Consumers under this tier shall be limited to the total number of shares made available to the Cooperative by the Cooperative's wholesale power provider.

*Participation under the Solar Tier 1b – Residential Community Solar shall be limited to Residential service only and shall be available on a first-come, first-served basis until the Cooperative's available shares have been fully subscribed.

Solar Division Tier 2 -

Minimum Size = 5 kW
 Tier Participant Cap = 200,000 kWh/month
 Total Tier Cap = 1,200,000 kWh/month

Solar Division Tier 3 -

Minimum Size = 500 kW
 Tier Participant Cap = None*
 Total Tier Cap = None*

*Tier caps under Tier 3 are subject to limitations associated with the Cooperative's ability to access new renewable energy resources through its wholesale power provider. The Cooperative will work with eligible Consumers to define appropriate Participation Levels and caps.
